

OnPath Energy: Graduate Development Programme

Project Management

Location: Houghton le Spring, Sunderland

Salary: Competitive + benefits

Application Deadline: 30th November 2024

Start Date: September 2025

Are you looking to kickstart your career in project management within the fast-growing renewable energy sector? Join our **Graduate Development Programme** and become part of the movement driving the UK's clean energy future.

About Us:

We are a leading renewable energy development company, committed to transforming the UK's energy landscape through wind, solar, and battery storage projects. As we expand our portfolio of sustainable energy solutions, we are seeking ambitious and enthusiastic graduates to join our team and help deliver impactful projects.

The Role:

Based out of our Head Office near Sunderland, as a **Project Management Graduate**, you will be at the heart of delivering renewable energy projects from concept to completion. This two-year development programme will provide you with hands-on experience across different stages of project management, including planning, execution, and delivery.

Key Responsibilities:

- **Project planning:** Support the development and structuring of project timelines, resources, and budgets for renewable energy projects.
- **Coordination & communication:** Collaborate with cross-functional teams, including business development, land, planning, technical and construction teams, to ensure project milestones are met.
- **Risk management:** Assist in identifying and mitigating potential risks to project success, including environmental, financial, and regulatory challenges.

- **Stakeholder engagement:** Build and maintain relationships with key stakeholders, including local authorities, landowners, and communities to ensure smooth project progression.
- **Reporting & documentation:** Monitor project progress and contribute to regular reports, ensuring projects are delivered on time and within scope.

What We're Looking For:

- A recent graduate (or soon-to-be graduate) with a degree in **project management, engineering, environmental science, business, or a related discipline.**
- A strong passion for **renewable energy** and sustainability.
- Excellent **organisational skills** and attention to detail.
- Strong **communication and teamwork** skills, with the ability to work effectively across different departments.
- Proactive problem-solving skills and an ability to adapt in a dynamic environment.
- A **UK driving licence** and willingness to travel to project sites across the UK.

What We Offer:

- **Comprehensive training:** You'll receive hands-on project management experience, mentoring from senior project managers, and a tailored development plan.
- **Career progression:** Upon successful completion of the programme, there will be opportunities for permanent roles within the project management team.
- Exposure to **complex renewable energy projects.**
- Competitive **salary and benefits package**, including opportunities for career growth in a sector with significant future potential.
- A supportive and inclusive company culture, driven by a commitment to sustainability and community engagement.

How to Apply:

To apply for this exciting opportunity, please submit your CV and cover letter to applications@onpathenergy.com by 30th November 2024.
